

MUHAMMAD TALHA TARIQ

MERN STACK DEVELOPER

SUMMARY

Energetic and focused student studying Computer Science, eager to dive into the world of web development through an internship. I know my way around MERN Stack Developer, especially HTML5, CSS3, Javascript, React js Node js ,Express js MongoDB, Tailwind css, etc. Ready to learn and contribute to cool web projects. A good team player with strong communication skills, seeking an internship to put my coding skills into action and gain hands-on experience.

PROJECTS

Todo List

Todo List :Oct 2023 - Sep 2023

Todo List with persistent local storage functionality! This feature-rich application boasts a dynamic React UI, ensuring a seamless and responsive user experience. The magic lies in the local storage integration, allowing users to retrieve and continue managing tasks even after closing the browser.

Currency Converter

Currency ConverterSep 2023 - Sep 2023

my latest project! I've developed a Currency Converter using React and JavaScript, integrated with a powerful API

Password Generator

Password GenerateNov 2023 - Nov 2023

Building a password generator using JavaScript and React logic can be a great beginner project as it involves fundamental concepts of programming and allows you to practice your coding skills while creating a useful tool.

Portfolio

Personal poerfolioMar 2024 - Mar 2024

My personal portfolio website represents a culmination of my skills in React and Next.js, combining them to create an engaging platform showcasing my projects, experiences, and expertise.
